Tim Lantz.....	9.86
Mark Nelson.....	10.14

ANOTHER BONUS MATCH

If interested, Mark Nelson is setting up another precision rifle match that will take place after our February match.

After we finish with the monthly match we are going to let Mark take over and start organizing the precision rifle match. We plan on starting this match at 1300 hours and depending on the number of shooters that show up we plan on being done around 1600 hours.

We do recommend bringing a scoped rifle because there are going to be small targets and some target identification issues at distance and the magnification will help out. However, if you don't have one, but have an iron sight you want to shoot (like an AR15) you can bring it and 'Give 'er a Shot.' You will get bragging rights for the day because of your efforts, even if you get beat. I tried the last one with a 16" AR with a CQT optic and got my backside kicked, but I'm going to try it again and hopefully do better this time.

Mark said this match will include some physical activity before shooting to make it more challenging (another strike against me).

We won't be able to provide precision ammunition for this match, so you will have to bring some of your own.

Mark said bring it should only take about 25 rounds to get through, but I always like to have extra.

VIDEO TAPING SO WEAR YOUR SHOOTING TEAM GEAR, IF YOU GOT IT

At the February match I am going to bring out a video camera, again, to tape a few stages for the Athletic Club because they want some stuff to put on the PDTV and the website (I'm sure they will see my video taping skills and say, "Thanks, but no thanks").

So, if you're coming out and you have purchased any Shooting Team clothing, wear it to the next match.

If you don't want to be taped, no problem just let me know. However, due to safety issues I will be standing behind the shooter, so I will be getting the back of the heads, and for many of you, it is your best side. ☺
